DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 4 and 7 recite the limitations "the receipted specification", "the result", "the parameters", "the possible catalog of attributes" and "the result". There is insufficient antecedent basis for these limitations in the claims.

Claims 2, 5 and 8 recite the limitations "the support number", "the confidence", "the condition" and "the maximum exception number". There is insufficient antecedent basis for these limitations in the claims.

Claim 3 recites the limitation "the bitmap value". There is insufficient antecedent basis for this limitation in the claim.

Claims 6 and 9 recite the limitations "the bitmap method" and "the bitmap value". There is insufficient antecedent basis for these limitations in the claims.

Allowable Subject Matter

2. Claims 1-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
